Nashville State Community College
Microeconomics, Macroeconomics,
Accounting I & II, Statistics

Punk Rock Pizza | Course Project

Interactive pizza ordering system w/ dynamic UI and real-time payment integration.

Tech: React, JavaScript, Tailwind CSS, JSON Server, RESTful APIs, Stripe Terminal

Developed an animated, interactive pizza builder that handles complex many-to-many relationships between ingredients

Built a dynamic SidebarCart component with live order totals, item editing, and cart persistence across sessions

Built responsive admin dashboards for order tracking, status management, and sales visibility

Pick-a-Park | Front-End Capstone

A national parks trip planning app that allows users to create customized itineraries.

Tech: React, CSS, NPS.gov API, useEffect, useState

Created dynamic park pages w/ embedded API data and reusable components

Built itinerary system using local state and conditional rendering

PROFESSIONAL SUMMARY

Full-Stack Developer | Creative Strategist | Graphic Designer

Driven by the belief that intuitive design humanizes technology, I create digital experiences that connect, convert, and leave a lasting impression. With over a decade of experience in brand development and team leadership—and training in JavaScript, React, Python, and Django, I infuse both creative vision and technical execution to all my projects.

SOFTWARE DEVELOPMENT EXPERIENCE

Software Developer Apprentice
Nashville Software School – Present

Intensive full-time bootcamp focused on modern front-end and back-end development, with hands-on experience building full-stack applications.

- Built responsive single-page applications (SPAs) using JavaScript, React, and modular CSS
- Designed and consumed RESTful APIs using Python, Django, and REST Framework
- Collaborated in Agile-style group projects using Git, GitHub, and issue tracking
- Applied Object-Oriented Programming (OOP) principles to structure scalable codebases
- Created dynamic user experiences by integrating external APIs and managing state with React hooks
- Designed wireframes, ERDs, and mockups to guide project planning and UI development

PROFESSIONAL EXPERIENCE

General Manager | Partner | Creative Director
HOTBOX Fitness – Nashville, TN 2012 – 2025

- Spearheaded the creation of HOTBOX's distinctive brand strategy and community-driven voice
- Conceptualized and launched branded merchandise with 85% profit margins
- Developed internal tracking systems to monitor KPIs, improve lead conversion by 20%
- Drove revenue growth from \$250K to \$1M annually through grassroots marketing and sales process optimization
- Created SOPs and training materials that cut onboarding time by 50%
- Managed all budgeting, forecasting, and P&L; automated reporting tools using AI-enhanced workflows
